Why have you decided to have your child evaluated by a Chiropractor?

He/She is continuing ongoing care from another chiropractor.

I recently had my spine checked and understand the value in getting my child checked.

I have concerns about his/her health and I'm looking for answers.

He/She has a specific condition and I've learned that chiropractic may be able to help. I want to improve my child's immune function.

Wellness Profile

The human body is designed to be healthy. The primary system in the body which coordinates health and function is the nervous system. Your nervous system is surrounded and protected by the bones of the spine, called **vertebrae**. Many of the common health challenges that adults experience have their origins during the **developmental years**, some starting at birth. Layers of damage to the spine and **nervous system** occur as a result of various **traumas**, **toxins and emotional stress**. The result may be misalignment to the spinal column and damage to the nervous system in a condition called **Vertebral Subluxation**. Please answer the following questions to give us a better understanding about your child's state of wellness and factors which may be contributing to vertebral subluxation and impeding your child's **ability to heal**.

What signals has your child's body been communicating?

PREVIOUS	PREVIOUS	PREVIOUS
Asthma Respiratory Tract Infections Sinus Problems	Frequent Diarrhea Constipation Flatulence	Failure to Thrive / Slow Weight Gain Slow or Absent Reflexes Asymmetrical Crawling or Gait
Ear Infections Tonsillitis	Headaches/Migraines Neck Pain	Weight Challenges Bed Wetting
Strep Throat Frequent Colds / Croup Recurrent Fevers	Torticollis / Head Tilt Trouble Feeding on One Side	Sleep Problems Night Terrors
Eczema Rashes	Back Pain Growing Pains Scoliosis	Tip Toe Walking Regression of Milestones Seizures
Allergies Food Sensitivites	Red, Swollen, Painful Joint Colic	Tremors / Shaking ADD / ADHD
Digestive Problems	Frequent Crying Spells	Autism / PDD
Do you have a specific concern that bring No, I'm interested in having my child Yes:	gs you in? I's nervous system assessed to achieve	e optimal health and functioning.
If yes, please answer the following question Does your child appear to be in pain or of	discomfort? How long has grame? Was the onset	your child been experiencing this? t sudden or gradual?
What treatment did they use?Has your child taken any medication for the second		es

, ,
What is your primary goal for your child at our clinic?
Our goals are to provide a detailed assessment of your child's current health status and provide to you the resources for a
highly engaged and healthy child whose body is functioning at its absolute peak potential while they grow. Essential to this healthy growth is a nervous system functioning free from interference called subluxations. You've taken an important step
for your child's future through a chiropractic evaluation!
Tor your child's future unrough a chilopractic evaluation:
Consent to Evaluation of a Minor Child
